West Bandung, West Java, Indonesia • ahmadsanijabarulloh.02@gmail.com • 0813-9572-2133 • [linkedin.com/in/ahmadsanny02](https://www.linkedin.com/in/ahmadsanny02)
github.com/ahmadsanny2 • ahmadsanny.vercel.app

Web Developer with hands-on experience shipping production applications using React.js, Next.js, Node.js, and Laravel. Skilled at translating Figma designs into responsive, maintainable UIs and connecting frontend interfaces to REST APIs and backend services. Works comfortably across the stack — from component architecture and state management to server-side logic with Express.js, database design with MySQL and PostgreSQL, and BaaS integration with Supabase. Actively building with TypeScript and the MERN stack.

SKILLS

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, Bootstrap.

Backend: Node.js, Express.js, Laravel, REST APIs

Database: PostgreSQL, MySQL, MongoDB, Supabase

Tools: Git, GitHub, Postman, Linux, Vercel, Railway

WORK EXPERIENCE

Web Developer Freelance - Developing a retail POS and inventory management platform for a client using Laravel, React.js (Inertia.js), and Tailwind CSS. - Integrated Midtrans Snap and Tripay payment gateways with real-time transaction status handling. - Implemented receipt printing functionality using react-to-print with configurable templates. - Designed role-based access control and multi-page dashboard for cashiers and store owners. - GitHub Repository: https://github.com/ahmadsanny2/point-of-sales	Apr 2026 - Present West Bandung
Web Developer Yhoiki Team (Community) - Contributed to an internal service platform using Next.js 15 (App Router), React 19, TypeScript, and Tailwind CSS v4. - Implemented the Landing Page and Products Page, converting complex Figma mockups into responsive, pixel-accurate code. - Collaborated with team members to establish a shared UI component library for design consistency. - GitHub Repository: https://github.com/yhoikiteam/SERVICE.YHOIKI.SITE	Aug 2025 - Jan 2026 Semarang
Front End Developer Saribunga Group - Created the company landing page from scratch using React.js, Tailwind CSS, and Laravel (Inertia.js), translating Figma designs into production-ready UI. - Engineered modular, reusable components for navigation, hero sections, and content blocks. - Managed the full development lifecycle independently — implementation through deployment — using Git.	Jun 2025 - Nov 2025 West Bandung
Web Developer (Internship) PT Sampul Kreatif Teknologi - Built a web-based AI chatbot application connected to the OpenAI API using Next.js, deployed on Vercel. - Designed the frontend for a book marketplace platform using Next.js (App Router) and Supabase, focusing on responsive layouts and clean user flows. - Received "Excellent" evaluation for work discipline and output quality.	Apr 2025 - Jul 2025 Cimahi
Front End Developer SMK Taruna Harapan 1 Cipatat - Created the school's "Adiwiyata" website as a public-facing publication platform using Laravel, Tailwind CSS, and JavaScript. - Presented the platform to the Regional Education Office; used in the school's formal accreditation process. - Converted Figma designs into a responsive UI tested across major browsers.	Nov 2024 - Dec 2024 West Bandung

PROJECTS

Retail Point of Sales System  - Engineered a retail management system with product catalog, inventory tracking, transaction processing, and receipt generation. - Integrated two payment gateways (Midtrans Snap, Tripay) supporting multiple payment methods. - Implemented role-based authentication, cashier dashboard, and admin reporting views. - Designed a SweetAlert2-based notification system for consistent, user-friendly feedback across all CRUD operations.	Apr 2026 - Present
PinjamKu: Digital Tool Lending Management System (UKK Project)  - Created a full-stack application for managing equipment lending with three access roles: Admin, Officer, and Borrower. - Implemented JWT-based authentication and RESTful API architecture with clear client-server separation. - Designed dashboard views for tracking active loans, return status, and inventory availability.	Jan 2026 - Apr 2026
Travelo: Modern Tourism Landing Page  Designed a high-performance landing page showcasing travel destinations with interactive multi-carousel components.	Sep 2025 - Oct 2025
Books Marketplace Platform  - Built a digital book marketplace with Supabase handling authentication and data storage. - Added PWA support with offline capabilities via Workbox and middleware-based route protection.	Apr 2025 - Jul 2025
Chat AI: Multi-Modal Intelligent Platform 	Apr 2025 - Jul 2025

- Developed a multi-modal AI chat application supporting text conversations and image generation.
- Integrated real-time code execution via react-live and persistent chat history stored in Supabase.

Mindful Journey: Mental Health Platform (INVOFEST Competition) [🔗](#)

Sep 2024 - Nov 2024

- Led a team as Team Leader for the INVOFEST 2024 national web design competition.
- Designed an interactive landing page and article hub with smooth scroll animations.

EDUCATION

Software Engineering

Jul 2023 - May 2026

SMK Taruna Harapan 1 Cipatat

- Graduated with an overall average score of 87.55.
- Competency Test (UKK): Scored 97.00 — "Sangat Kompeten" (Highly Competent).
- Team Leader and Frontend Developer at INVOFEST 2024 national web design competition.
- Head of Tarpan Tech extracurricular club.
