PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building modern web applications using Next.js, React.js, and Laravel — ranging from an OpenAI-powered chatbot and a Supabase-backed book marketplace to a multi-role inventory management system built with Node.js and MySQL. Proficient in converting Figma designs into clean, responsive UIs with a focus on performance and code quality. Eager to contribute to a fast-paced IT company environment.

SKILLS

Frontend	HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS, Bootstrap
Backend	Node.js, Express.js, PHP, REST API
Database	MySQL, Supabase, Sequelize ORM
Tools & Workflow	Git, Vercel, VS Code, Linux
Soft Skills	Adaptive, collaborative, time management, team leadership

WORK EXPERIENCE

Frontend Developer | Freelance Jun 2025 – Nov 2025

Saribunga Group · West Bandung, West Java

- Designed and built a company landing page from scratch using React.js, Tailwind CSS, and Laravel (Inertia.js) — successfully launched and adopted as the company's primary digital branding platform.
- Implemented dynamic navigation with React Router and modular UI components, improving maintainability and page render performance.
- Managed the full development lifecycle independently using Git (branching & versioning).

Web Developer | Internship Apr 2025 – Jul 2025

PT Sampul Kreatif Teknologi · Cimahi, West Java

- Built a web-based chatbot application integrated with the OpenAI API using Next.js — successfully deployed to Vercel and used as an internal company demo tool.
- Developed the UI for a book marketplace platform using Next.js, Tailwind CSS, and Supabase (user authentication, book listings, category filters) — platform actively used for selling internal company publications.
- Independently resolved backend integration challenges through research and debugging, ensuring all features were delivered on time.
- Final evaluation: Discipline (95/A), Work Ability (90/A), Work Quality (85/A), Initiative & Creativity (80/A), Behavior (90/A), Teamwork (80/A) — Overall: Excellent.

Frontend Developer | Project-Based Nov 2024 – Dec 2024

SMK Taruna Harapan 1 Cipatat · West Bandung, West Java

- Built the Adiwiyata website as a publication platform for school environmental activities using Laravel, Tailwind CSS, and JavaScript — presented to the Regional Education Office and used in the school's formal accreditation process.
- Converted Figma designs into a clean, responsive UI with attention to cross-browser compatibility.

PROJECTS

Equipment Loan Management System | Vocational Competency Assessment (UKK)

Next.js · Node.js · Express.js · MySQL · Sequelize · REST API · JWT Middleware

- Built a full-stack web-based equipment loan system with 3 access roles (Admin, Officer, Borrower) — Next.js frontend consuming a Node.js/Express REST API backend.
- Implemented Sequelize ORM for MySQL schema management and JWT-based middleware for role-based endpoint security.
- Completed as the primary project for the Vocational Competency Assessment (UKK), demonstrating end-to-end fullstack development capability.

AI Chatbot Web App | PT Sampul Kreatif Teknologi

Next.js · OpenAI API · Vercel · Apr 2025 – Jul 2025

- Developed an OpenAI-integrated chatbot web app using Next.js API routes as a secure proxy layer — deployed to Vercel and used as an internal demo medium.

Books Marketplace Platform | PT Sampul Kreatif Teknologi

Next.js · Tailwind CSS · Supabase · Git · Apr 2025 – Jul 2025

- Designed and developed a digital book marketplace with listings, category filters, and Supabase Auth — actively used as the company's digital sales channel for internal publications.

Company Landing Page | Saribunga Group

React.js · Laravel (Inertia.js) · Tailwind CSS · React Router · Jun 2025 – Nov 2025

- Built and launched the company's official landing page from scratch — now the primary digital branding tool for internal and external audiences.

Adiwiyata School Website | SMK Taruna Harapan 1 Cipatat

Laravel · Tailwind CSS · HTML · JavaScript · Nov 2024 – Dec 2024

- Developed an environmental activity publication website with gallery and article features — used in formal school accreditation presentations to the Regional Education Office.

EDUCATION

Software Engineering

Jul 2023 – Jul 2026

SMK Taruna Harapan 1 Cipatat · West Bandung, West Java

- Achieved the highest grade in the Web Programming subject.
- Led the team as Team Leader & Frontend Developer at the INVOFEST 2024 national Web Design competition.
- Served as Head of the Tarpan Tech extracurricular club, managing web and technology development activities.
- Completed additional training courses on Dicoding and Codepolitan, focused on web application development.

AWARDS

- Participant – National IT Competition 'Web Design' by Informatics Vocational Festival (INVOFEST), October 2024.
